

I don't know what I would do without KLOVE on the air in this area. There is all kinds of music out there, and there are all kinds of radio stations to listen to, but when you need something that lifts you and something that you don't have to worry about ANYONE listening to, then turn to KLOVE. You don't have to screen the songs before the kids listen, you don't have to be afraid of what anyone in the family hears and it is very soothing, uplifting music as well as interviews and news. And believe me, in this traffic, we all need something soothing and uplifting! If KLOVE were to go off the air in favor of some other type of music, it would be a severe detriment to the listening audience in that the stress level would increase and parents everywhere would again have to screen everything!
